

Quadruple diversity receiver

DA-1004R The system is designed with the newest generation wireless technology. To cope with the squeezed radio spectrum the system provides more compatible channels within limited bandwidth. The DA-1004R is a 4 channel system in a 19" one U case. Antenna outputs and AC power supply are designed to be cascaded. It provides great convenience to setup. REMOSET feature sends all microphone data by pushing of one button. Moreover all 4 microphones can receive correspondent data at the same time after one push. As always Dateq provides detailed and full adjustment for best audio and radio performance.
