

SECRET EMT7

FINISHES : BLACK - WHITE GRILL

«EASY MOUNTING» TECHNOLOGY

Fast set-up with a simple rotation

The EMT7 is a circular flush-mount speaker, made for a seamless integration. It can be mounted easily and quickly, thanks to its «Easy Mounting» technology, a mounting system without tools, with a central rotation.

2-way coaxial speaker equipped with a 17cm midrange/bass driver with a polypropylene membrane, and a 25mm adjustable silk dome tweeter.

Frequency response between 55 Hz and 20 kHz, ideal for music or home theater systems.

Sensitivity of 90dB with a maximum power handling of 140W.

The low and high frequency levels can be adjusted in 3 positions. [-3dB to +3dB].

The EMT7 is supplied with a ultra-thin magnetic protection grill, that can be painted for a discrete and customizable installation.
